IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re patent Application of: Lei

Serial No.: 10/002,937

Filed: November 15, 2001

For: Fuel Injector With Controlled High Pressure Fuel Passage

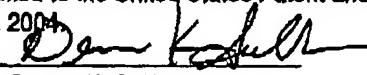

) Atty. Docket: D5136

) Group Art Unit: 3747

) Examiner: Carl S. Miller

CERTIFICATE OF TRANSMISSION

I hereby certify that this document is being facsimile transmitted to the United States Patent and Trademark Office, Fax No. (703)872-9306, on December 7, 2004.

Dennis K. Sullivan
Attorney for ApplicantINFORMATION DISCLOSURE STATEMENT

Assistant Commissioner for Patents
P.O. Box 1450
Arlington, VA 22313-1450

Sir:

Further to Applicant's amendment filed on December 3, 2004, Applicant wishes to bring to the attention of the Examiner the references identified on the attached form PTO-1449A, a copy of the references are enclosed herewith for the Examiner's convenience.

Augustin and DaimlerChrysler show an alternate path from the high pressure fuel passage. However, the main fuel flow passage 9-17 is blocked unless the valve 22 is actuated. In Applicant's invention, the high pressure fuel passage is open unless the valve 352 is opened. Thus, Applicant's device is selectively operable whereas the reference device must be actuated during each injection.

A fee transmittal form for the fee due under 37 CFR 1.17(p) is attached.

An action on the merits is requested.

Respectfully submitted,

Dennis Kelly Sullivan
